```
[1]: #make pay equal .01
pay = .01
#make total equal 0
total = 0
#create the loop
for day in range (1,32):
    pay *= 2
# put the program on screen
print("In 31 days, I made ${:,.} dollars.". format(pay))
```

In 31 days, I made \$21,474,836.48 dollars.
